## VISION PASSION ACTION

**Radical disability.** We introduce the work of scholars, artists and activists who push back against stereotypes, pity and paternalism. We challenge the forces that exclude, devalue and oppress.

**Accessible education.** We build from your experience at college, at work and on the front lines. We offer courses on-

line and on-site. We offer transfer credits. We prepare you for leadership in direct service, community activism, policy, planning and advocacy – or for graduate study.

**Earn a Degree in Disability Studies from Ryerson University.**
