

Revel in the Light

The Story of Rebecca Beayni

A Quiet Life Will Shine, these words open this inspiring biographical portrait of Rebecca Beayni, a young woman whose incredible spirit bursts in and through the seams of a physical disability she was born into. *Masterworks Productions* is pleased to present this story of Rebecca, a woman whose openness to life touches and stirs those in the world around her.

A testament to love and family, and the amazing mystery of hope, this film is the realization of a dream of Rebecca's, her family and that of The Ubuntu Initiative, whose mission statement follows:

The Ubuntu Initiative consists of individuals who have a developmental disability and their families and friends. We come together to imagine and to create, with these individuals, a different more hopeful future, rooted in gentleness, interdependence and deep friendship.

Ubuntu is a South African Zulu word meaning: "My humanity is inextricably bound up in your humanity."

Produced by: Masterworks Productions

Producer/Director: Deiren Masterson

This inspirational 12 minute video is in VHS and DVD format. It is a useful teaching and motivational tool for families, individuals, schools, university students, faith communities, staff and the broader community as a whole.
